# Welcome

Since time immemorial, human beings have questioned life and death, searching for answers concerning the origin of the universe, its underlying principles and the cycles of nature. In this age, an increasing number of people want to know how to achieve a complete and harmonious health in body, mind and spirit.

The Universal Healing Tao Switzerland is a practical **health promotion** and **prevention system**, that has been passed down for thousands of years in China in the quest of answering those questions. During this long period of time practices were refined and tested by millions of people. Its ancient wisdom for a modern world needs therefore to be appreciated when it comes to health and the art of nourishing life.

The UHT System Switzerland is a highly structured and precise system with simple yet very effective health promotion / prevention methods and techniques. Several educational Branches – all open for either personal self development and in depth certification Trainings – offer step by step curriculums with 6 to 12 Modules and up to 90 or more educational elements within in each branch. The branches cover a wide range of preventative healthcare, stress management, relaxation techniques and illness recovery methods.

Within such a vast system it is vital for you as a UHT Instructors to know "the how, when, what" when sharing your experiences with people, because you are the model of what the practices, the contents of a given module, its elements and techniques promises to achieve. In this information age it also of utmost importance to be crystal clear about what exactly the information is we share on each development step in order for any student to easily absorb and integrate it step by step into their 24hour and 4-Dimensional health flowjoy© life style structure. It has not to be too much and not too little - but just the middle way.

## Nourishing all 4 Dimensions

As a holistic health system the UHT nourishes, enhances and works simultaneously and synergistically on 4 Dimensional Health Needs of human life. It addresses the physical, emotional, mental and spiritual level of a person's being, improving feelings of wellbeing in all areas of life. Benefits of regular practice include:

<b>Spiritual</b>	<b>Improved Self Awareness</b>	Deeper connectedness in all areas of life, being in flowjoy©, on purpose and united. Increased creativity and sharpening of intuition
<b>Mental</b>	<b>Improved Self Consciousness</b>	Enhanced concentration and mind power. Improved communication, memory, productivity and decision-making.
<b>Emotional</b>	<b>Improved Self Worth</b>	Increased peace and inner tranquility. Enhanced competency to remain calm under pressure or in emergencies. Development of emotional intelligence. Reduction of anxiety, negativity and stress.
<b>Physical</b>	<b>Improved Self Confidence</b>	Healing and prevention of illness, maintenance and enhancement of health and immunity. Increased energy and vitality. Improved muscle tone and strength. Enhanced spinal / joint flexibility and better posture. Optimal functioning of digestion, organ function and restful sleep.

The Universal Healing Tao Switzerland curriculum offers a number of hands-on learning opportunities to explore for example the teaching and development of a flowjoy©lifestyle strategy and how to live consistently in a 24h 4-Dimensional Health State. For newly certified instructors and CNT Practitioners we offer several Meta Skill Seminars to learn more about how teach privately and develop a private praxis, hold small group classes, give workshops and public presentations etc. On the following pages we share only a very brief outline of the Meta Skill learning opportunities. Please contact us for more information.

Taoist strategies and methods are simple, easy, and powerful.

**They deliver what they promise!**

# I Introduction

## 01 The Meta Skills

In one sentence the Meta Skills supports to avoid the tragedy that people search the source of creation outside of themselves rather than inside themselves. To be able to support people to see clearly how to avoid this misunderstanding an instructor needs not only to have mastered practically what he shares (teaches) but he must - what he wants to transmit to others - really DO while he is sharing (teaching) it. And this is a skill that can be trained and learned by attending a Meta-Skill Training.

Out of recognizing this difficulty I created and developed over 27 years the Meta-Skills trainings. Those trainings are able support new as well as experienced instructors in deepening their teaching skills. Meta- Skills support the delivering of the practices and its related theory to new students in way that puts the last evolutionary step in the UHT System "becoming immortal" to the very beginning - into the basics.

The Meta-Skill teaching transmits a holistic approach to sharing our inner experiences with others. It builds a strong inner teacher awareness to hear our inner voice and specifically how to be aware of the **four inner faculties** of our Tan Tien, **namely "guidance, power, security and wisdom"** which are all related to the power centre - the Tan Tien. Mastering the inner faculties will allow the teachings to flows effortlessly out of our inner core being. The Meta Skill teachings enhance therefore teaching from and with awareness, the very ingredient that connects us even to the last formula in the UHT System "Union of Human and Tao".

Meta-Skill Modules and Trainings support you specifically:

- to understand all the parts of the whole
- with the chance to clarify all your questions around teaching, get feedback by practicing with other instructors
- how to use all the necessary materials and information at the right time, right place and right moment.
- how to use internal and external tools in harmony with each other

The basics modules and elements (for example the UHT Introduction, Warm up, Inner Smile, 6 Healing Sounds, Microcosmic Orbit, Iron Shirt, Tao Yin and Tan Tien Chi Kung) are the **fundament** of the UHT System.

To share the basics with students is therefore one of the most important tasks and as the teacher of Grandmaster Mantak Chia said to him once "everyone should practice the MCO" and we would have a "better world". To be able to say this needs an understanding of the whole UHT System and a perspective what we are trying to accomplish in order to share the basic elements properly with students. It is not the **quantity of exercises** we give but the **quality and the precise instructions** that support the student in feeling the energies and being able to master them by themselves. It takes from 3 month to one year or longer to integrate the basics into the everyday life and it is the Meta-Skill Trainings that helps the instructor to share those contents with ease.

If the fundament of the basic practices is weak (both in the practice and in the conceptual understanding of it) the rest of the building will be shaky and unstable. This applies to the practices as such but also how the practices are delivered. The "how" is always related to our character and competence and this finds its expression in our Meta Skills. All of those aspects are important ingredients that are addressed in the Meta-Skill teachings because they build both trust and trustworthiness in ourselves as well as towards and between people. Blending and polishing those two aspects transforms us into an excellent model that is both **authentic as well as unique**. Best of all it allows us to be completely ourselves while sharing our practices with others. Sharing practices, theory und understanding in this way will bring us into flowjoy© - hence we are in alignment with the original intention of the creation.

## 02 Meta Skill Awareness

A Meta-Skill is a kernel of pragmatic wisdom that applies to a variety of circumstances including ones you never directly experienced before, such as a unknown moment in a teaching situation.

Life as such as a process of accumulating Meta-Skills. With a rich Meta-Skill Set in UHT and CNT Teachings the passage through life and teaching becomes easier.

Meta-Skills are not always easy to put into words. Much of this wisdom is non-verbal. Meta-Skills refine your awareness and help you specifically:

- to understand and deal with other people appropriately
- to see how things that happened to you arise from your own actions

- to learn to see the real underlying mechanism behind things happening to you

But the most important Meta-Skill concerns yourself. After testing yourself during a Meta-Skill Training Day in a variety of teaching circumstances and maybe failing in many of them, you begin to understand your own strength and weaknesses and how you can become your worst enemy or always your next best higher version of yourself as a teacher.

The most valuable Meta-Skill in teaching is to manage your Ego while teaching so it does not distort your vision or lead you to SELF SABOTAGE and Self Destruction. Ego arises from our personal emotional investments. When we become engaged in a certain path (teaching UHT for example) and spend a lot of our resources supporting it, we have made an ego investment. Our investment builds up and seeing things any other way damages our self-esteem and can act disturbingly in our teachings and the way to accomplish our task or enjoy what we actually do like to enjoy. The ego management Meta-Skill lies in correcting and uncovering our own inevitable distortions and self-deceptions. You learn to say "that was a stupid thing to do, say etc" and that is something you can learn to tell yourself without waiting for the world to tell you in a more painful way. Learning how the ego works within us is part of the Meta-Skills that eventually allows us to act with compassion.

Every individual is dealing with Spirit versus Ego issues and has made his own emotional investments and is very sensitive about any challenges to them. Part of our Meta-Skill Training experience is learning **how difficult it is to change these patterns in ourselves and others**. In meeting new students which have already substantially invested in a path of life it is not our role to CHANGE THEM, this is not within our power INSTEAD our role is to navigate around their sensitivities with compassion so not to trigger a defensive reaction.

### 03 How to obtain Meta-Skills and what are the Meta-Skills of learning a Meta-Skill?

Train how you teach what you teach in a Meta-Skill Training gives you the real-world experience and test to improve your Meta-Skill Wisdom. You learn for example:

- to learn from your own mistakes without actually having to pay the price for it
- to learn from unexpected moments in teaching
- to get out of your comfort zone and stretch your limits

If you intend to build Meta-Skills you need a commitment to your future, time and attention and to retain the freedom to change. Meta-Skills involve processing life's lessons on an ever higher plane. Meta-Skills at the highest level are called "wisdom". You gain it by stepping out into the real world, by making mistakes and learning from them. The Meta-Skill Training supports you in all of this. There is no wisdom without experience but the truly wise train consciously how to gain a valuable set of Meta-Skills before going out in the world.

You can live on a mountain top if you like, but if you want to teach you need to visit the village and go on the market place because those are the places your wisdom comes from.

So it is for teachings - you go to a Meta-Skill Training and gain the support, the wisdom and the experience in how to teach in flowjoy© and successfully.

### 04 Position of the Meta-Skills within the UHT Switzerland Curriculum

UHT Switzerland offers a path with 3 Evolutionary Steps, 6 Educational Branches and 9 Formulas that allows the student to develop and grow step by step their soul and raise their spirit.

As a "Energy University" more than 36 Teaching Modules (for example Module Basic) are available of which each has some elements (for example the basic has the elements Microcosmic Orbit, Inner Smile etc.).

The Support Sets and Single Documents support the students after a workshop with the necessary support to be able to practice and integrate at home what they learned in the class or workshop.

The Guides are descriptions that are meant to give the interested students further information about the personal growth and development possibilities.

The Trainings support students that are interested to not only to practice for themselves but also to learn how to share the practices and teachings with others. The Associate Instructor Training for example builds the FUNDAMENT for all further learning and is as such one of the most important trainings both for UHT Instructors and CNT Practitioners.

	<b>LEARNING</b>	<b>SHARE / TEACH</b>	<b>BENEFIT yourself / others</b>
AI Training for	CNT learning the practice	to share with clients	improve their health
	AI learning the practice	to share with individuals to share small groups locally BASIC MODULE and its ELEMENTS	gives self responsibility for health  energy self management prevent healer burn out deeper integration of practice into your 24h health life style

The Meta-Skills finally are the method that brings it all together for a UHT Instructor or CNT Practitioner by deepening the teaching experience, gain coaching skills and putting the insights into action.

### 03 To join a Meta Skill Training

Our Meta Skill trainings are offered in private sessions 1:1 and in group settings. Meta-Skills Trainings are offered for the following subjects:

- How to give a UHT System Introduction (from 5 to 15 Min. and 4 hours lectures)
- How to teach Basic Techniques such as MCO, Iron Shirt, etc.
- How to teach advanced Basic Skills such as World Link Manifestation Meditation
- How to teach Healing Love (covering single, dual and couples twin light level teachings).
- How to teach Warm up that covers the Basics, Healing love till Bone Marrow Nei Kung etc.
- How to teach 10-12 Chi Kung Class Session of 60-120 Minutes each
- How to teach 1 Day, 2 Day, 3 Day Basic Workshops
- How to teach 1-2 Day Workshops Modules such as Tao Yin, Tan Tien Chi Kung etc.
- How to shift yourself from Mortality into Immortality awareness
- How to give a UHT/CNT Intro Days (7-8 hours seminar promoting CNT and UHT at the same time)

### 04 Further opportunities within the UHT Switzerland Community

Besides the above we support our Instructors and CNT Practitioners with a variety of support structures, materials etc. Please inquire if you are interested to know more about one the support areas bellow:

#### ● Basic Teaching Support for AI Trainees and CNT Practitioners

- Skill Analysis
- Teaching Style
- Coaching and Supervision
- Energy Meditation Modules
- Energy Exercises

#### ● Meta Skill Training Support

**Meta Skills =** deepening your awareness on "how you use" a technique and skill as you apply it to a client or teach an element of practice to them.

#### ● Coaching Support and 4-DH and flowjoy@Coach Training

Personal change, transformation and shifting from old self into new self.  
Development and coaching Support to move towards a 24h 4-Dimensional Health and flowjoy@lifestyle.

## ● Business Support

Developed over 27 years our business support materials and seminars facilitates the teachings tremendously for new and even experienced teachers. According to the needs of each individual it provides for example the following:

- Simple Support Brochures for Students
- Detailed 10 Session (60 or 90 min) Chi Kung Class Basic sets
- Detailed schedules to give 1 to 3 Day Workshops with its according slide shows
- Single A4 Practice Sheets to give to UHT students and CNT Clients

It is also possible to purchase some of our UHT Switzerland Products that make teaching and marketing right from the start easy and gives it right away a professional outlook.

## ● UHT BASIC support

AI UHT Basic Branding  
CI Basic Administration Set  
Basic Flyer  
Basic Module Description  
Guide 3 for Students  
Basic Brochure  
Single Sheets  
Warm up DVD for resale

## ● CNT BASIC support

CNT Trainee and CNT 1 Practitioners  
CNT Branding  
Basic Administration Set for Praxis  
CNT Client Guide  
CNT Study Guide  
CNT Support Sets Clients 01  
CNT Single Sheets

## ● Joining the UHT Community Service Opportunities

As a UHT Switzerland Member you benefit from joining a community that is interested in personal development and inner alchemy. Other opportunities are for example to join a larger teaching event for example:

- Tao in the City Lausanne up to 30 Instructors offer a day of teachings together for the public
- Salons join a team that promotes themselves in a fair, event etc.

or become the anchor of organizing an event in your local area.

## 05 Opportunities and choices

Bellow you find from **A - J** a variety of learning opportunities to deepen the understanding of a certain topic as well as all the Meta-Skill Manuals that are available.

Simply make to begin with a **X** for the topics that spark your interest.

Then after having selected your interest you have several choices:

01 If you are interested in a specific topic(s) you can call us...

02 You can send a request e-mail to [rentao@universal-healing-tao.ch](mailto:rentao@universal-healing-tao.ch) and mention the

<u>Theme</u>	<u>Nr. of Topic(s)</u>
Practice	1,6,15
Theory	1,4
4-D Life Style	10
Adminstration	02

03 Book a private coaching session around a topic of your choice

04 Ask if the materials of a module or topic is available to be purchased and then you can study it by yourself

A Modules related to change, self-organisation and developing a Mission-Vision

If you like to move yourself and your business further then those are modules that will support you in exactly doing that.

T		Modules related to Business	X
	1	Mission Vision Goals Strategy	
	2	Paradigma Change	
	3	Spiritual Compentency	
	4	Manifestation	
	5		
	6		
	7		

B Meta Skill Seminars 1-9

## E Support Documents for the Universal Healing Tao Basic Elements

If you are interested in the full UHT Switzerland Guide 9 - UHT-CNT Business Career Support then please send us an e-mail.

The documents bellow support the UHT Teachings and to deliver the Basic Theory of UHT Techniques in 3-5 minutes in such a way that you touch upon all the 4-Dimensions while delivering the message about the specific technique such as for example the inner smile etc.

This provides a framework and structure in order not loose ourselves in too many or too little words but exactly the balance of delivering a message and then be able to focus on the practice instead.

P	UHT Basic Element		X
1	Set of Skill Analysis	4-dimensional Skill Analysis Example Set for all Basic UHT Techniques

15	UHT Introduction	5 Minutes	

## G Support Meta-Skill Manuals for Upgrading Trainings

Healing Love is a topic of which the techniques are simple yet the comprehension of how it impacts all aspects of life is not that easy to understand. Those manuals and exercises support the Instructor to see more clearly and also to have exercises at hand for issues that occur in that highly important topic.
